

# 100% NHSE-compliant Ten Second Triage (TST) and NHS Major Incident Triage Tool (MITT) Solutions

**NEW LOW PRICES for Triage Bands**  
**FROM JUST £0.74 EACH!!**

Triage is changing and NHS England has developed two new triage tools which must be used by all first responders to a major incident from **July 2024 onwards**.

**NHS-compliant  
TST Triage Bands**

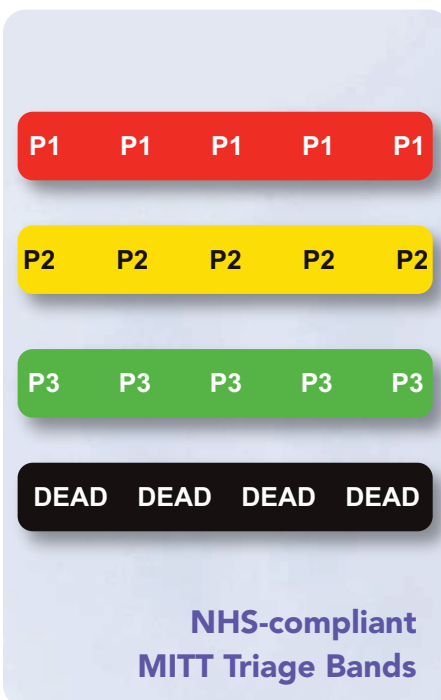

The NHS Major Incident Triage Tool (or MITT) – is to be used by all NHS responders - while the Ten Second Triage tool (TST) is intended to be used by anyone responding to a major incident who provides care to casualties prior to the arrival of the NHS clinical response – including Police, Fire and Rescue services and other agencies.

As part of the Ten Second Triage process, simple but consistent labelling that indicates the priority of the casualty must now be used to communicate to further responders and ensure resources are directed appropriately.

**This is why Metafont Ltd is now supplying NHS ambulance services, Police and Fire & Rescue services with their 100% FULLY NHSE-compliant Metafont Ten Second Triage TST and NHS MITT Solutions – from just £0.74 each!**

**User friendly design with  
felt back for patient comfort**

**NHS-compliant  
MITT Triage Bands**

**Triage Band Carry Pack**

# ORDER NOW AND SECURE THE BEST PRICE

But time is running out and NHS England has stated that all NHS ambulance services and trusts must be fully compliant with the new triage rules by the end of June 2024. With procurement administration, ordering, production and delivery time factored in, it is best to act now, to ensure your organisation is 100% compliant before the end of June 2024.

**Until the end of 2023, we are now offering a special reduced price to all UK Crown organisations and those involved in the provision of frontline response services – as well as EU organisations who meet the same criteria.**

## OUR LOWEST EVER PRICES FOR TRIAGE BANDS

We are finding that many organisations are joining forces with their local partners to get our Bulk Deal price of just **£0.74** for each band (eg: ambulance, police and fire & rescue services all purchasing together). Our new, reduced prices are now as follows:

QUANTITY	PRICE (Excluding VAT)
1 - 5,000 Triage Bands	<b>£1.18 per Triage Band</b>
5,001+ Triage Bands	<b>£0.74 per Triage Band</b>

Carry-pack prices are separate and depend on the quantity purchased, but each could hold up to 80 triage bands.

### GOT ANY QUESTIONS?

Contact us now via [enquiries@metafont.co.uk](mailto:enquiries@metafont.co.uk) and we will respond immediately or we can arrange a Teams or Zoom meeting.

### FREE SAMPLES

We can supply you with free samples of the triage bands, just email us with the address you want them to be sent to.

### HOW TO ORDER

Please contact us via [enquiries@metafont.co.uk](mailto:enquiries@metafont.co.uk) with the quantities you wish to order and we will send you a formal quotation by return email. We can then be set up on your procurement system and will simply require a Purchase Order to put your order into immediate motion!

### 100% COMPLIANT

The triage bands and carry packs are 100% compliant with the national, approved NHS England specification.

### COST EFFECTIVE

Our triage bands are currently the best value option when compared to other products on the market.

### COMPACT

Size specified by NHS experts through rigorous testing and research. Compact, easy to carry and store using your own existing packs or the Metafont Carry Pack solution.

### DEXTERITY

Can be used by first responders wearing gloves, without hindrance.

### PERFECT VISIBILITY

They're highly visible, using reflective PVC, enabling identification of casualties in light and dark conditions.

### DURABLE

Hard wearing and reusable (eg for mass casualty training and exercises).

### ECO-FRIENDLY

Conform to all recyclable requirements of public sector procurement teams.
